

Tight Lines Fly Fishing Company is excited to offer another exciting option for our drift boat smallmouth trips.... The Small Stream Adventure. We aren't at liberty to name the rivers, but for those of you that like the idea of a smaller river loaded with feisty smallmouth, a wooded setting, fast six-weights and even the possibility of a big trout, then this is your cup of tea! The best time for this particular system is from early-June to mid-September. Trips will be run the same as our regular smallmouth trips, including transportation to and from a designated meeting area, flies, gear (if needed), non-alcoholic beverages, a full lunch and shuttle. License requirements are also the same, just a Wisconsin general fishing license is required. This is an amazing stretch of water that doesn't disappoint. If you're interested in booking a day (or more), make sure you let the shop know that you want to do the Small Stream Adventure Package. We can recommend lodging in the area if needed.
