### ***About the Bois Brule:***

The Brule, of all the wonderful water in Wisconsin, ranks as the most storied river in our state. Flowing north to Lake Superior, the Brule sees a massive run of wild steelhead. These fish are, without question, some of the strongest steelhead one can encounter anywhere in the Great Lakes. "Hot" is a bit of an understatement for describing their tenacious fight. Aside from the fishing, the Bois Brule is a spectacular river to spend time on. Its history and fame can be felt in the crisp air as you walk along the well-worn paths. The natural beauty of the area combined with the spectacular fishing makes a trip to the Brule one that you won't soon forget.

## ***What to bring:***

***Rods:*** 9-10 foot 7 or 8 weight rods are ideal as indicator nymph fishing is the preferred method.

***Reels:*** A reel with a good drag is essential on this river. The fish are very powerful and will do whatever they can to get you in the logs. You will need some stopping power.

***Lines, Leaders, Tippet:*** Any good weight forward floating line will do. Think nymphing on the leader end of things. Rio's Leaders in 1or 2x works well. Fluorocarbon tippet in 1-3x is ideal.

***Clothing:*** Just assume that there is going to be inclement weather. It could be warm, but it could also snow. Be prepared with layers, winter hats, gloves, and a good waterproof wading jacket. Spare clothing is a good thing to have in case you get wet. Waders and wading shoes are mandatory.

***Other Gear:*** Polarized glasses, Waders, Pliers, Camera
